Description

With its capacity for 24 tubes and a speed of up to 21,330 × g, the **Centrifuge 5425** is the new laboratory standard. As a device specifically for standard applications, it simply belongs in a modern laboratory, where it ensures optimal separation. The Centrifuge 5425 serves as a reliable partner, especially for high-throughput users who expect the highest ergonomic comfort, and offers particularly high flexibility with its six rotor options.
It is perfectly suited for all modern molecular biology applications in Eppendorf and PCR tubes.
