

## Shaker for CO2 Incubator MRC

This is Compact Shaker with benefits such as small foot print and easy to move. Built-in Plate Type BLDC motor provides low noise, low vibration. Despite compact size, shaking is powerful and the workplace is large to load various vessels.

### Features

- Gentle magnetic drive

The non-belt magnetic drive design allows for high performance of water resistance.

This most gentle drive unit has exceptionally smooth start-up and braking behavior, and is specifically good for cell cultures.

- Made of stainless steel

The entire housing of shaker is made of stainless steel (SUS304), meeting the demand of GMP' s cleaning requirements. It is easy for the removal of any unwanted liquids and can be cleaned with chemicals.

- Magnetic Attachment

The thin Wire Cable connection between the shaker and the control box can pass through the sealing part of the inner glass door although no access port is in your incubator.

- Placing remote box with Magnet

Depending on the material type of the incubator or the situation of the lab, placing remote box is available with integrated magnets.
