## Heidolph water multidistributor

**€879.00**  
**plus VAT &**  
**Shipping**

### Product Images

## Description

---

Distributes water from any source evenly to up to five reflux coolers. Two water multi-distributors are always used in the design. One to distribute the water and a second to recapture the water, either for further use or to discharge it entirely. All connectors have a leakproof coupling that closes automatically when the connection is disconnected. This makes it possible to use the manifold with any number of reflux coolers (max. 5).

## Additional Information

---

No.	BH-1391
Manufacturer (Brand)	Heidolph
VGKL number	104158103
EAN	4058072775971
Gross weight	0.408
Transport temperature	Room temperature
Net weight	0.36100 kg
Country of origin	Great Britain
Packing width	0.12000 m
Packing height	0.07000 m
Packing depth	0.13000 m
Packaging volume	0.00100000 ccm
Customs tariff number	84818099
