## Description

---

MAGIO bridge thermostats combine high temperature control performance with maximum flexibility. Due to the adjustable bridge, the thermostats can be used with any bath vessels up to a filling volume of 100 liters. Cooling coil: integrated Pump function: pressure/suction pump Pump type: submersible pump Product features: - immersion depth of 200 mm (MX-Z) and 150 mm (MS-Z) - powerful heating capacity of 3 kW (MX-Z) and 2 kW (MS-Z) - extendable stainless steel bridge for bath widths of 33 to 68 cm - ideal for demanding, external applications - easy control of complex applications - continuously adjustable, extremely powerful pressure/suction pump - flow rate 16 ... 31 l/min, delivery pressure 0.24 ... 0.92 bar, suction pressure 0.03 ... 0.4 bar - Wetted parts made of stainless steel - Integrated programmer - External Pt100 connection integrated - USB connection - RS232 interface for online communication - Ethernet interface - Analog interfaces (accessories) - Profibus DP (accessories) - Modbus - Stake sockets for cooling water solenoid valve - RS232/RS485 interface for online communication - Models for internal and external applications from 3 to 26 liters - Integrated drain cock for easy and safe draining Performance data: For temperature control applications near or below ambient temperature: use cooling coil or JULABO immersion cooler. Scope of delivery: 2 hose olives each suitable for 8 and 12 mm I.w. tubing (pump connections with M16x1 male thread)

## Additional Information

---

No.	JN-0766
Manufacturer (Brand)	Julabo
EAN	4058072847586
Transport temperature	Room temperature
Net weight	7.60000 kg
Country of origin	Germany
Customs tariff number	84198998
