Product Images

Description

The anti-vibration plates KERN YPS-04, -05, -06 are designed to dampen shocks and vibrations, which would otherwise distort the weighing results of high precision and analytical balances. Also ideally suited for vibration-free microscope setups

The anti-vibration plate is made of polished granite supported on absorbing rubber elements

The anti-vibration plate can be used ergonomically optimized while standing or comfortably seated

Compact dimensions, advantageous where space is limited

All surfaces are easy and hygienic to clean

Suitable for all KERN analytical balances, precision balances and microscopes with the corresponding dimensions

Dimensions 400×450×60 mm

Additional Information

No.	KP-9949
Manufacturer (Brand)	KERN
EAN	4066292683600
Transport temperature	Room temperature
Color	gray
Material	Granite
Wide	400 mm
Height	60 mm
Depth	450 mm
suitable for	Scales
Manufacturer	CORE
