Product Images

Description

- With the smooth-running KERN roller conveyor attachments KERN YRO you transform your platform scale into a robust measuring system for fast and flexible weight determination in conveyor lines
- Especially suitable for use in production or shipping lines where time means money. Here, goods or packages can either be weighed as they pass over the scale or, at fixed stations, heavy goods can be conveniently pushed onto the scale thanks to the roller conveyor, weighed and forwarded to the connected roller conveyor
- Just put the roller conveyor attachment on a platform - ready!
- KERN YRO-01: suitable for platforms with weighing plate size W×D 400×300 mm
- KERN YRO-02: suitable for platforms with weighing plate size W×D 500×400 mm
- KERN YRO-03: suitable for platforms with weighing plate size W×D 650×500 mm
- Robust aluminum profile frame. Modular design allows easy disassembly for cleaning or replacement of individual components
- Smooth-running, hot-dip galvanized steel rollers with ball bearings
- Suitable for use in dry environments
- Roller spacing approx. 30 mm

Additional Information

No.	KP-5638
Manufacturer (Brand)	KERN
EAN	4058072123253
Transport temperature	Room temperature
Manufacturer	CORE
