Description

- Material test weight: single weights stainless steel polished, milligram weights
- Material case: wood padded. Milligram weights (1 mg - 500 mg) in removable plastic case
- The table shows the smallest and the largest weight in each case
- **Note:** Shipping weights without a protective case can most likely result in damage to the weights that exceeds the respective allowable error limit. In the worst case, your weights may become unusable. Therefore, we offer you the appropriate protective and storage cases that prevent damage and keep your weights safe during their service life. Should you nevertheless wish your weights to be shipped without such a protective case, please confirm this to KERN in writing.
