neolab® Beta Shield Model II, 53 cm

€240.30
plus VAT &
Shipping

Product Images

Description

Protective shield made of 10 mm thick acrylic glass to shield the body against beta radiation emitted by radioactive isotopes such as iodine and ^{32}P . Does not protect against secondary and gamma radiation. Curved model made of one piece without adhesive seams, therefore easy to clean.

Order No. 4-1004

Curved backwards at a 15° angle, for working while sitting. This model is also suitable for use with containment trays due to the bend in the base.

Width: 355 mm

Additional Information

No.	4-1004
Manufacturer (Brand)	neoLab
EAN	4058072020491
