Description

- Adapter for wireless connection of scales, force gauges etc. with RS-232 interface to Bluetooth-capable devices, such as Bluetooth printers (e.g. KERN YKC-01), tablets, laptops, smartphones etc..
- Thus, in case of spatial separation or long distance, the weighing data can be printed out wirelessly from one or more scales conveniently on a Bluetooth printer or transferred to a Bluetooth device (corresponding software on Bluetooth device required, not included in delivery). The compact adapter with its attractive design can usually be connected directly to the scale, i.e. an additional interface cable is then not necessary. The power supply is either via the scale (if compatible) or with standard included power adapter. Range up to 100 m in open terrain, depending on obstacles, such as walls, on the sensitivity and antenna type of the receiver. Crossing of transmit and receive line via DCE/DTE switch.
- Compatible with KERN software BalanceConnection
- **Scope of delivery:** RS-232/Bluetooth adapter, power adapter (EU/UK/USA/AUS/CH), USB-A to Mini-USB-B cable, inverting adapter (gender changer), driver CD
- For initial configuration, a computer with RS-232 port or USB-RS-232 adapter (e.g. AFH-12) is required

Additional Information

No.	KP-5625
Manufacturer (Brand)	KERN
VGKL number	105839502
EAN	4058072151096
Transport temperature	Room temperature
Manufacturer	CORE
