Description

WIGGENS® offers **laboratory stirrers** for stirring and mixing tasks in the laboratory for low to high viscosities. Safety, power and intelligence were again the focus of the development of this product range.

WIGGENS® stirrers handle stirring volumes of up to 100 liters.

- Brushless DC motor, which is very well suited for long-term experimental applications
- Stable and precise stirring process thanks to state-of-the-art microprocessor technology
- Totally enclosed and compact housing
- Stable and quiet working process
- Internal overload protection
- Adjustable impeller shaft for different heights
- Soft start at low speed guarantees a smooth and safe stirring process
- Suitable for applications in different environments
- Standard version includes an agitator, stand, rod and clamp, and stainless steel impeller

Additional Information

No.	WI-1547
Manufacturer (Brand)	Wiggins
old neoLab article no.	F-1030
EAN	4058072163532
Transport temperature	Room temperature
autoclavable at 121°C	No
Speed MAX	2000 rpm
Color	Black
Wide	105 mm
Height	185 mm
Depth	160 mm
Display (reading, setting)	digital
Operation via	Knobs/Buttons
Voltage	230 V
Stirrers and rotators features	with infinitely variable speed control with continuous function
Speed MIN	40 rpm
Energy supply	Power grid
Number of speed levels	stepless
Functionality	electronic electric
