Description

- The KERN OZM-9 includes outstanding stereo zoom microscopes with above average optical performance
- The 4.5W LED ring illuminator included as standard ensures optimal illumination of your specimen
- In addition to the long working distance, an extra large field of view and its brilliant resolution, the KERN OZM-9 delivers true color and depth of field images with high contrast
- The zoom objective allows you to magnify continuously from 7×-45×
- You can choose between a binocular model and a trinocular model for connecting a camera for documentation and quality reports
- The extendable telescopic arm stand offers you the possibility to adjust the height individually to your specimen. An additional extendable column in the horizontal axis of the telescopic arm guarantees you an additional reach
