Description

- Many typical laboratory functions, such as formulation function, percentage determination, GLP logging and the high precision make the KERN 572 a reliable partner for daily work in the laboratory
- The rugged design, the industry-typical functions like piece counting, vibration-free weighing and the large weighing ranges predestine this series for all industrial applications where highest precision is required
- Freely programmable weighing unit, e.g. display directly in yarn length g/m, paper weight g/m2, etc.
- Rugged die-cast aluminum housing provides stability, protects the weighing technology and is insensitive to daily use
- Ring-shaped draft shield standard for models with weighing plate size Ø 106 mm. Weighing chamber Ø×H 157×43 mm
- Eyelet and hook for below-balance weighing standard on models with readability = 0.001 g
- Dust cover included in delivery
- Models with resolution >= 240,000 points: Level indicator for exact leveling of the balance as standard equipment
- To make it easier for you to make the right choice of your KERN balance, we have listed a quality code for each model. This code is made up of two quality features and provides you with a further decision-making aid for the perfect balance for your application, in addition to the product features, technical data and pictograms.
