Description

- Density determination made easy! Thanks to the self-explanatory, graphic-supported control panel, the density of solids and liquids can be determined in the shortest possible time, making it also well-suited for school and teaching use
- Self-explanatory, graphic-supported control panel, immediately comprehensible sequence of steps even without operating instructions
- – Visualized sequence avoids operating errors
- – No training time = saves costs
- – Ideal for the inexperienced user
- The 4 work steps are performed from left to right:
- Tare the balance by pressing a key
- Select density determination mode (solids/liquids)
- Weigh the sample/sink in air
- Weigh the sample/sink in liquid. The density is shown directly on the display
- Particularly flat design
- Hook for below-balance weighing as standard equipment
- Ready to start: Batteries included, 9 V block, operating time up to 12 h. AUTO-OFF function for battery conservation
- Note: Please order the matching set for density determination at the same time, see accessories
- To make it easier for you to make the right choice of your KERN balance, we have listed a quality code for each model. This code consists of two quality features and provides you with a further decision-making aid for the perfect balance for your application in addition to the product features, technical data and pictograms.

Additional Information

| | |
|-----------------------|--------------------------------|
| No. | KP-4049 |
| Manufacturer (Brand) | KERN |
| VGKL number | 105836202 |
| EAN | 4058072137236 |
| Transport temperature | Room temperature |
| Color | light grey grey |
| Wide | 175 mm |
| Height | 250 mm |
| Depth | 250 mm |
| Readability | 0,01 g |
| Operation via | Membrane keypad |
| Weight | 1.36 kg |
| Reproducibility | 20 mg |
| Scales features | with switchable weighing units |
| Weighing range MAX | 2 kg |
| Manufacturer | CORE |
| Type scale | Laboratory balance |
