## Eppendorf (IVD) benchtop centrifuge Centrifuge 5702, without rotor

**€2,135.00**  
**plus VAT &**  
**Shipping**

### Product Images

## Description

---

The all-purpose **5702 family of low-speed centrifuges** is specifically designed for low to medium throughput cell culture and clinical research laboratories. They fit easily under any bench thanks to their compact design and are quiet in operation, benefiting your working environment. They can be operated with six different rotor options to accommodate almost all vessel types.

' **Centrifuge 5702** for standard applications

### Ergonomics

- ' Requires little floor space and fits on any lab bench
- ' Very quiet operation for a better working environment
- ' Low access height for easy loading and unloading of samples

### Temperature management

- ' Optimized airflow minimizes sample heating during run (5702)

### Quality and safety

- ' Rotor chamber made of stainless steel, rust-proof and easy to clean
- ' Unbalance detection for maximum safety
- ' Key lock prevents unintentional adjustment of parameters
- ' Aerosol-tight caps for safe centrifugation of hazardous samples optionally available

## Additional Information

No.	VB-2009
Manufacturer (Brand)	Eppendorf
old neolab article no.	E-1901
EAN	4058072420475
Transport temperature	Room temperature
Speed MAX	4400 rpm
Color	White
sterile	No
Wide	395 mm
Height	243 mm
Length	320 mm
Depth	320 mm
Operation via	Knobs/Buttons
Weight	20 kg
Voltage	230 V
for ambient temperature	2 to 40 °C
Centrifuges properties	programmable with timer with continuous function rotor is replaceable (additional) rotors are available as accessories
Number of speed levels	> 10
Speed MIN	100 rpm
Power	200 W
Maximum relative humidity at 20 °C	75.0 %
Model centrifuge	Eppendorf. 5702
RZB	3000 g
Type centrifuge	Table centrifuge (large)
