### Product Images

## Description

---

- Optimized for torque testing of bottles and other packaging with screw caps
- Quick-Pin System: The four bottle holders are plugged in instead of screwed in to save time. This allows a quicker reconfiguration to other bottle sizes
- Metal housing for durable use in rugged environments
- **Capacity display:** A rising luminous band indicates the still available measuring range
- Backlit graphic LCD display
- Rubber feet with anti-slip function
- **Scope of delivery:** four bottle holders with rubber jacket, robust carrying case
- Internal data memory stores up to 500 measurement data. Memory content can be transferred to PC via optional software
- Data interface USB and RS-232 included
- Peak hold function for recording the peak value
- Can be used in both directions of rotation
- Limit value function: input of an upper/lower limit value. An optical and acoustic signal supports the measuring process
- AUTO-OFF function

## Additional Information
