Product Images

Description

Sterile disposable inoculating loop for aseptic work in microbiology. Made of smoothly processed polystyrene so as not to damage the gel.

Order No. 4-0055

Sterile disposable inoculating loops made of PS for inoculating near bottoms in microbiology.

The particularly smooth material allows gentle application without damaging the surface of the culture medium. The end of the inoculation loops can also be used as needles.

PU: 1000 pcs./pack (underpacked in sterile zip-bag of 25 pcs.)
