Description

Dosys™ premium laboratory self-filling syringes

Socorex laboratory self-filling syringes offer a wide range of precision instruments for safe and reliable fluid dispensing.

Product benefits

- Optimal balance and user comfort
- Fast and reliable volume selection
- Excellent reproducibility
- Piston density without O-ring
- High chemical resistance
- Easy disassembly and maintenance
- Fully assembled autoclavable at 121°C
- One year warranty.

Automatic self-filling syringes with turret handle are used for longer dosing sessions, both of small and larger volumes.

Dosys™ 174 premium

Automatic self-filling syringe with removable Luer Lock valve system. Increased resistance to corrosion thanks to carefully selected materials. Volume range from 0.1 to 10 ml. Package includes syringe and 1 meter silicone tubing, suction base, PVC protective sleeve, aspiration, venting and dosing cannulas, valve spare parts kit and instruction manual.

Additional Information

No.	SR-0285
Manufacturer (Brand)	Socorex
old neoLab article no.	7-7685
EAN	4058072368036
Transport temperature	Room temperature
autoclavable at 121°C	Yes
Color	silver
Volume	10 ml
sterile	No
Syringes properties	with Luer-Lock
Division	1 ml
Material cone	Stainless steel
Material syringe	Borosilicate glass
Type syringe	Self-filling syringes with removable valve system
