Product Images

Description

The Sunlab® bottle-top dispenser is suitable for a wide range of dispensing tasks in the laboratory. Due to its high chemical resistance, most acids, alkalis and solvents can be easily dispensed. All parts that come into contact with liquids are made of resistant plastics (BSG, PTFE, FEP). The dispenser is easy to clean and fully autoclavable. Various adapters for different thread types and sizes included in the scope of delivery make the Sunlab® Bottle Top Dispenser suitable for a wide range of bottles and vessels.

Additional Information

No.	D-8610
Manufacturer (Brand)	sunlab
EAN	4058072086398
