Description

Socorex Acura® manual microliter pipettes have been developed with the highest customer demands in mind and guarantee convenience and reliable results for both routine and complicated pipetting processes. The pipette line is equipped with a precision adjustment mechanism and is continuously adjustable up to a very fine volume resolution. The extremely smooth volume adjustment allows simultaneous one-hand operation. The drop is adjustable in length. Sensitive click-stops, together with the freely rotating Smartie push-button cap, ensure extreme stability of volume adjustment within pipetting operations.
