Description

The Sunlab® mechanical microliter pipette is the right pipette when it comes to fast and easy pipetting. It is lightweight, ergonomically designed and can be optimally used for all common tasks. The microliter pipette is fully autoclavable and available in different volumes from 0.1 to 10,000 µl.

The volume of the pipette can be easily adjusted via a rotary wheel on the pipetting knob and read on the display. The ejector makes it easy to remove used pipette tips. The Sunlab® microliter pipette is calibrated according to the DIN EN ISO 8655 standard.
