## Description

---

### **Electronic pipette PIPETMAN® M Connected, Bluetooth®-enabled.**

PIPETMAN® M Connected is a Bluetooth®-enabled programmable electronic pipette, as easy to use as a mechanical pipette.

- The electronic pipette with guaranteed performance, even in repetitive mode, according to ISO8655 specifications
- Programming of individual protocols (also possible via PC and PipettPilot™ app) for reliable pipetting. The motorized piston ensures high reproducibility.
- The intuitive user interface has five pipetting modes for numerous applications: "pipette", "repetitive", "mix", "reverse" and "custom".
- Aspirate and dispense with the click of a button and minimal effort. Combined with the ergonomic design, this provides maximum pipetting comfort, reducing pipetting fatigue and increasing pipetting efficiency.

GLP features:

- Lockable volume
- Push button with color coding
- Service reminder
