## Description

---

**Socorex Acura® manual multichannel pipettes** have been developed with the highest customer demands in mind and guarantee convenience and reliable results for both routine and complicated pipetting processes.

The new pipette line is equipped with a precision digital display and is continuously adjustable up to a very fine volume resolution. The extremely smooth volume adjustment allows simultaneous one-hand operation. Sensitive click-stops, together with the freely rotating Smartie push-button cap, ensure the utmost stability of the settings made during pipetting operations. These instruments expand existing pipetting possibilities on microtitration plates with optimal user comfort.

The extremely smooth volume adjustment allows simultaneous one-hand operation. The ejector is adjustable in length. Sensitive click-stops, together with the freely rotating Smartie push-button cap, ensure extreme stability of volume adjustment within pipetting procedures.
