Description

ep Dualfilter T.I.P.S. filter tips are filter tips with contamination protection through a two-phase filter. The two filter layers made of flexible, hydrophobic material fit perfectly into the tip cone and retain almost 100% of all aerosols and biomolecules. This filtering effect is achieved by different, clearly defined pore sizes. The layer facing the sample provides protection against drops, splashes and aerosols. The layer facing the tip cone of the pipette serves as a second barrier against contamination and reliably binds biomolecules. A defined air flow rate ensures complete sample recovery and familiar fast pipetting.

Additional Information

No.	VB-2632
Article - USP	Two filter layers provide dual protection from aerosols ¹⁾ and biomolecules to protect your pipette and sample Free of PCR inhibitor additives for reliable results from downstream processes Available in PCR clean/Sterile (sterile un
Typ Pipettenspitze	Filterspitzen
Manufacturer (Brand)	Eppendorf
VGKL number	106978551
EAN	4058072426125
Gross weight	1.1
HSNumber	84799070
Storage temperature	Room temperature
Transport temperature	Room temperature
autoclavable at 121°C	No
Net weight	0.99000 kg
Color	yellow
Volume MAX	200 µl
Volume MIN	2 µl
Country of origin	Germany
sterile	Yes
Customs tariff number	84799070
Length	55 mm
Degree of purity	PCR clean
Packaging type Pipette tips (Eppendorf)	Racks
