Description

The accessories and consumables for the OmniaTap and OmniaPure ultrapure water systems ensure consistently high water quality. All Omnia ultrapure water systems are supplied as standard with a pretreatment cartridge, an ultrapure water cartridge and a sterile filter capsule, which should be replaced at regular intervals. Order No. 2-1238: Disinfection cartridge In order to achieve continuously high water qualities, it is recommended to disinfect the water systems at regular intervals. This can be achieved very conveniently with the disinfection cartridge specially designed for the Omnia systems. The disinfectant is injected into the cartridge for this purpose. Three tips are included in the scope of delivery. Suitable for all Omnia ultrapure water systems.
