Product Images

Description

Oxygen-active surface disinfectant cleaner granules.

Especially for sensitive surfaces and for final disinfection.

For disinfecting cleaning of washable surfaces in a wide variety of medical areas. Also in laboratories (such as cell culture, microbiology) and industry. Due to its microbiological performance and the special active ingredient (MMPP), routine use is particularly recommended in sensitive areas.

- discreet, pleasant odor
- low residue
- exceptionally broad material compatibility
- practical application with dosing bag
