## Description

---

### **Sterile Klercide™ 70/30 IPA; sterile disinfectant**

In microbiologically controlled areas, **disinfectants** are among the most important consumables.

The Klercide range of **sterile** hard surface disinfectants in various product formats and variants are manufactured in a cleanroom environment.

bottles and canisters are each packed 2-fold in film/PE bags in a cleanroom (WFI products even 3-fold) and can easily be smuggled in without further effort.

They are cleanroom compatible, 0.2 micron filtered and sterilized by gamma irradiation. Available as a spray system with the SteriShield Delivery System, which ensures sterility of the contents throughout use.

(Spectrum of activity according to: EN 13697 bacteria and fungi / EN 1650 yeast fungi / EN 1276 bacteria)

#### **Recommended use:**

- Class A: Very suitable
- Class B: Very suitable
- Class C/D: Suitable
- Not classified: suitable

#### Active ingredients

70% IPA

30% WFI

(70% isopropyl alcohol mixed with deionized water.)

## Additional Information
