Product Images

Description

The ingredients of Labosol® S are constantly monitored.

Intensive cleaning concentrate for soiled laboratory glassware, porcelain, instruments and material made of plastic and rubber.

Cleans thoroughly and automatically without attacking the material to be cleaned or the skin. Can also be used for ultrasound.

0.5-2% solution depending on contamination. Cleaning power can be increased by heating the bath.

Substitute for chromosulfuric acid, without chlorine and caustic alkalis, biodegradable.
