Product Images

Description

The compact and lightweight neoLab quick couplings made of chemically resistant polypropylene with a nominal diameter of 3/8" replace the heavy and bulky standard brass couplings with ball locks in a wide range of applications. Ergonomic design and large release buttons result in a coupling that is easy to handle and operate. The particularly efficient valve design ensures high flow and exceptionally low dead volume.

- optionally with hose olive or with male thread
- with shut-off

Additional Information

No.	2-0809
Manufacturer (Brand)	neoLab
EAN	4058072048068
Color	gray
Material	Polypropylene (PP)
Form	straight
TBST MAX	110 °C
TBST MIN	0 °C
Clutches properties	with external thread
Figure	3
MAX operating pressure	7.2 bar abs.
Connection for counterpart	3/8"
Gender coupling part	female
Thread [connection]	3/8"
Type coupling part	Female coupling part. with male thread
