Bürkle® Antistatic set in case (3 copper cables w. pliers)

€56.95 As low

as

€48.50

**plus VAT &
Shipping**

Description

When filling flammable liquids, insufficient grounding of the filling equipment and containers can cause electrostatic charges to build up, which can lead to ignition or explosion with many substances. With Bürkle's antistatic set, grounding can be ensured easily and reliably. The antistatic set consists of three color-coded connecting copper cables with clamping pliers, in a practical plastic case.

Additional Information

No.	KL-1087
Manufacturer (Brand)	Bürkle
