## Product Images

## Description

uvex carbonvision - the lightweight, small full-vision goggles The frame of these full-vision goggles was constructed using the latest material and manufacturing techniques so that it has maximum mechanical strength (B = 120m/s) despite its low volume - and weight. The TPU overlay firmly welded to the frame ensures a perfect fit and allows easy cleaning. With its low weight of just 46 grams, uvex carbonvision is one of the lightest full-face goggles on the market - and it allows you to work for long periods of time without pressure points. General features small full-vision goggles with the best protective properties low weight of just 46 grams can be easily combined with other PPE - for example with helmets Frame colors: black, gray colorless PC lens Protection features certified according to EN 166 (personal eye protection) and EN 170 (UV protection filter) Marking: W 166 34 B CE - 2-1.2 W 1 B KN DIN CE reliable UV 400 protection Frame construction with low volume and high mechanical strength (B: 120 m/s) Comfort features scratch-resistant on the outside, permanently fog-free on the inside (uvex supravision extreme ) best all-round vision without tunnel effect thanks to close-fitting lens
