Product Images

Description

DURAN® built-in filter, Ø 30 mm, porosity 1 In addition to solid-liquid filtration, filtration or separation of reaction mixtures from the gas phase is also possible. If, for example, an installation filter is installed in a hose system, it filters solids from the gas phase and thus purifies it. Special features and advantages: Installation of the filter in a piping system makes it possible to purify a carrier gas Burnt-in and therefore permanently durable white print Application: Installation in gas lines to free the gases from mechanical impurities (e.g. dust), Qualitative analysis and preparative chemistry, Filtration at reduced pressure, Filtration

Additional Information

No.	SD-1898
Manufacturer (Brand)	DURAN
VGKL number	112585501
Transport temperature	Room temperature
