Description

DURAN® reducer, sleeve NS 29/32, core NS 60/46 Adapters are used to connect two components with different NS sizes. DURAN® expansion pieces allow the connection of a larger sleeve to a smaller core. Special features and advantages: Expansion pieces enable the connection of a smaller sleeve to a larger core and thus the use of ground joint components of different sizes Application: Connection of two components with different standard ground joint sizes

Additional Information
