

## DURAN® connector with NS24/29

### Product Images

---

## Description

DURAN® connecting piece, 90° angle, NS 24/29 Connecting pieces are transition pieces with olive and have an olive instead of the second standard ground joint. Hoses can be connected via this olive, enabling a vacuum pump to be connected, for example. Special features and advantages: Tight seal due to standard ground joint Angle 90° With NS core Easy and tight connection of hoses Burned-in and therefore permanently durable white print Application: Connection of hoses
