Product Images

Description

Flow-through vessel DG made of stainless steel for direct sonication and simultaneous cooling. The DG 4 G flow-through sonication vessel enables continuous flow-through sonication, e.g. emulsification, dispersion or homogenization. It is suitable for an overpressure of up to 2 bar and a flow rate of up to 50 l/h. The sample can be sonicated several times in the circuit. The hose connection of 8 mm lines is made without tools by means of plug connectors. For connection to step horns SH 70 G or SH 213 G with titanium disc TT 13, DH 13 G as well as SH 100 or SH 200 with TT 213 Outlet: G1/8 "
