Fritsch® Rotor p-15 tool steel with set of stator knives

€1,727.00
plus VAT &
Shipping

Product Images

Description

gently comminutes the sample by a pure cutting action and can be recommended for most applications due to its hardness and extreme abrasion resistance. For sample preparation according to RoHS and WEEE (e.g. for the detection of hexavalent chromium) and for XRF analysis, we recommend the rotor made of chromium-free tool steel.

Additional Information

No.	FR-0136
Manufacturer (Brand)	Fritsch
VGKL number	109804603
Transport temperature	Room temperature
