Fritsch® beater bar insert PULVERISETTE 14 premium line without sieve

€757.00
plus VAT &
Shipping

Product Images

Description

The FRITSCH beater bar is ideal for the extremely gentle and fast comminution of particularly heat-sensitive materials such as powder coatings or plastics, as well as the problem-free pre- and fine comminution of hard-brittle to soft, fatty or residual moisture samples. The corresponding impact rotor and a special sieve ring for the impact bar must be ordered separately.

Additional Information

No.	FR-0100
Manufacturer (Brand)	Fritsch
Transport temperature	Room temperature
