**€52.25**  
**plus VAT &**  
**Shipping**

### Product Images

## Description

---

according to DIN 30665. DIN burners cannot be shut off completely according to standard 30665. Therefore, a small flame continues to burn even when the gas tap or needle valve is closed. The gas supply must be shut off at the central shut-off in the laboratory

## Additional Information

---
