Description

Stainless steel barrel pump with discharge hose and stopcock made of stainless steel and PTFE, electrically conductive. The Bürkle drum pump made of stainless steel (1.4301) is suitable for filling flammable and highly flammable liquids. The barrel pump is electrically conductive and thus meets the requirements for handling flammable liquids in combination with the antistatic set. The PTFE seals ensure long-lasting and maintenance-free use. Pump capacity approx. 9 to 22 l/min depending on pump length. The extensive range of accessories allows the barrel pump to be adapted to a wide variety of requirements. Immersion tube Ø 32 mm Hose can be unscrewed, 1.2 m long Stainless steel ball valve NW 8 mm Outlet spout Ø 12.8 mm Not suitable for acetone! Attention! When filling flammable liquids, barrel and pump must be grounded! Use antistatic set!
