## Description

---

Stainless steel barrel pump with discharge bend. The Bürkle drum pump made of stainless steel (1.4301) is suitable for filling flammable and highly flammable liquids. The barrel pump is electrically conductive and thus meets the requirements for handling flammable liquids in conjunction with the antistatic set. The PTFE seals ensure long-lasting and maintenance-free use. Pump capacity approx. 9 to 22 l/min depending on pump length. The extensive range of accessories allows the barrel pump to be adapted to a wide variety of requirements. Discharge bend can be unscrewed immersion tube Ø 32 mm Not suitable for acetone! Attention! When filling flammable liquids, barrel and pump must be grounded! Use antistatic set!

## Additional Information

---

No.	KL-1085
Manufacturer (Brand)	Bürkle
VGKL number	290513002
Transport temperature	Room temperature
