Bürkle® Drum pump Ultraclean PTFE with discharge bend, 95 cm

€603.15 As low
as
€548.10
plus VAT &
Shipping

Description

Drum pump with fixed discharge bend and stopcock made of PTFE. Due to the high chemical resistance of the wetted materials PTFE and FEP, this barrel pump can also be used to fill liquids that attack conventional materials such as PP or PVC (except elemental fluorine). The barrel pump is also suitable for filling high-purity liquids. The stopcock prevents the escape of vapors hazardous to health and the dripping of liquid after filling. Immersion tube Ø 32 mm All valves are made of solid PTFE/PVDF Top quality - 3-year warranty Barrel fittings for commercially available containers available as accessories

Additional Information

No.	KL-1096
Manufacturer (Brand)	Bürkle
VGKL number	100456061
Transport temperature	Room temperature
