## Description

---

ABJ-NM: Internal automatic adjustment for temperature changes  $\pm 2$  °C and time-controlled every 4 h, guarantees high accuracy and makes the system location-independent  
ABS-N: CAL adjustment program for setting the accuracy, external test weights at extra cost, see test weights  
ACS ABS-N identical in construction to ACJ , ABJ-NM identical in construction but with RS-232 and USB data interface integrated as standard  
Dosing aid: High stability mode and other filter settings selectable  
Convenient formulation/documentation with combined tare/print function. In addition, the mixture ingredients of the formulation are automatically numbered and printed out with number/weight value  
Automatic data output to PC/printer after each balance stability  
Balance identification number: 4-digit, freely programmable, is printed out in the calibration record  
ABJ-NM has OIML certificate  
Dust cover included in scope of delivery

## Additional Information

---

No.	KP-8766
Manufacturer (Brand)	KERN
VGKL number	105835321
Transport temperature	Room temperature
