

Bürkle® AquaSampler, FEP/PTFE, 1050ml, LxOuter-Ø107cm x46mm

Product Images

Description

Sample collector for groundwater samples from wells, shafts and other sources. Suitable for all common well shafts with inspection openings up to Ø 2", without jamming or snagging. Ultra-pure material guarantees highest possible sample purity. Easy cleaning thanks to rounded edges and threads. FEP/PTFE ultra-clean, anti-adhesive surface Please order desired sinking rope separately.
