## Description

---

KECK™ spherical ground joint clamp, S, made of POM, dark blue, S 19 Q KECK™ spherical ground joint clamps are an economical alternative to conventional spherical ground joint clamps made of metal. They are easy to put on and take off. The good spring properties of the POM material prevent scratching of the glass surface. An important contribution to safety in the laboratory. The different colors make it easy to distinguish between the sizes. Special properties and advantages: Excellent dimensional stability as well as good spring properties No damage to the glass surface during application in contrast to conventional wire clamps Easy, safe and quick to apply and remove Color coding per size Inexpensive alternative to conventional spherical ground joint clamps made of metal Application: Securing spherical ground joint connections

## Additional Information

---

No.	SD-2343
Manufacturer (Brand)	DURAN
Transport temperature	Room temperature
