Shipping

Product Images

Description

The **Cryomaster® cryobox** made of high-quality **stainless steel** is ideally suited for long-term storage of sensitive samples due to its robustness. Where boxes have to be stored over a longer period of time, frequently frozen or thawed, the stainless steel cryobox is the better alternative to conventional cryoboxes made of cardboard or plastic.

With a basic box size of 136 x 136 mm, the cryoboxes fit into all standard cabinet and chest racks.

- Ideal for cell culture laboratories and culture banks
- Available in three different heights
- For cryotubes with a diameter of 12 mm diameter

Additional Information

No.	4-6023
Manufacturer (Brand)	Cryomaster
EAN	4058072191368
Transport temperature	Room temperature
autoclavable at 121°C	Yes
Color	silver
Material	Stainless steel
Boxes properties	with special chemical resistance with closure/lid for light-sensitive specimens
Wide	136 mm
Height	133 mm
Length	136 mm
Depth	136 mm
Type closure/ lid	Slip closure
suitable for cooling in	Refrigerator Freezer Ultrat freezer Deep freezer Nitrogen container
