## Description

---

The **neoBox 81 plus** is the ideal **cryobox** for the safe storage and transport of your valuable samples. With its fixed 9x9 grid, the neoBox 81 plus offers space for 81 cryotubes with a diameter of up to 12.5 mm and a maximum height of 50 mm.

Including perforated plate (2-2939), which is inserted into the lower part.

Thus, each "sample position" is clearly numbered and assigned. Thus, all 81 positions in the box are unambiguous and there is no mix-up of specimens.

The lid and base are designed in such a way that the lid is always placed in a unique orientation - position lock.

The neoBox 81 plus is made of durable polypropylene and is temperature resistant from -90°C to +121°C and autoclavable.

## Additional Information

---

No.	2-2930
Manufacturer (Brand)	neoLabLine
EAN	4058072168261
Transport temperature	Room temperature
autoclavable at 121°C	Yes
Color	transparent (milky)
