Description

These PVC photo trays are characterized by a variety of shapes and colors. Available in low or high version, with or without bottom grooves, in attractive, high-gloss colors – white, red and black. The version with bottom grooves is ideal as a photo tray/developer tray. The raised bottom grooves prevent photo paper from sticking to the bottom of the tray. Liquid can be easily poured out through the corners of the tray. The version without bottom grooves is suitable for universal laboratory or storage purposes. Important: The photo trays are made of high quality PVC. PVC Thick-walled, break-resistant Largely resistant to acids and alkalis Not suitable for heating cabinet or dishwasher Temperature resistant from -30 °C to max. +60 °C

Additional Information
