Description

The compact disposable hearing protection plugs from Uvex in an ergonomic design offer the best wearing comfort and maximum safety, even during longer periods of use. To find out which attenuation is needed, the noise situation at the workplace must first be defined. This allows the appropriate hearing protection to be selected. The goal to be aimed for when selecting suitable hearing protection is to achieve a residual sound level of 70 – 80 dB that is effective at the ear of the wearer.

An example: noise level 100 dB – SNR 26 dB (uvex xact-fit) = 74 dB.

- all refill boxes are suitable for the dispenser "one2click" (**Art.No.: 1-0610**)

Additional Information

No.	1-0615
Manufacturer (Brand)	Uvex
EAN	4058072118778
autoclavable at 121°C	No
Color	beige
Material	Polyurethane (PU)
Sound insulation (SNR)	24 dB
Type hearing protection	Earplugs / noise stoppers
standardized according to DIN standard (DIN EN)	DIN EN 352-2:1993
