Product Images

Description

The **fine dust masks** are ideal for working and sanding paints, varnishes, wood, iron, steel, glass, carbon and mineral fibers, but also for handling asbestos on a small scale.

The mask is designed for the best possible wearing characteristics and combines safety, wearing and handling comfort to provide the maximum benefit for the mask wearer. The application aids on the top and bottom of the mask allow for easier and more hygienic opening, pre-shaping, application as well as correction of the mask on the face. The color-coded comfort banding is durable, tear-resistant and comfortable to wear.

Areas of application

Industry, rubber & plastics processing, paint manufacturing, pharmaceutical industry, quarries, laboratories, craftsmen, carpenters & joiners, ship & boat builders, glass processing, plumbers & plumbing, construction workers & civil engineering, road construction & municipalities, mechanics, mechanical engineering & metalworking, agriculture & nurseries.
