### Product Images

## Description

---

Respiratory half masks for maximum safety in shape-optimized design from Uvex.

Completely metal-free. Certified according to EN149.

The anatomical design and soft material edges prevent pressure points.

Easy to distinguish thanks to different font colors depending on the safety level (orange = FFP2, black = FFP3).

Compatible with Uvex safety glasses thanks to optimized nose area.

Seamless, continuous headband for comfortable and secure fit of the mask.

### **Order No. 1-1606**

**Model:** silv-Air 7330

Mask with safety level FFP3

Protection against harmful substances up to 30 times the limit value.

The exhalation valve reduces heat and moisture under the mask.

**The molded mask with climatec technology (1-1606)** provides additional protection with a three-chamber system for maximum filtration performance with minimum breathing resistance. The two additional filter chambers increase the filter surface area, extending the duration of use.

A circumferential comfort sealing lip prevents fogging of the goggles.

## Additional Information

---

No.	1-1606
