Description

The BLS half masks of the 4000 series with the patented B-Lock technology fit perfectly and have a high wearing comfort. The half mask can be completely dismantled and cleaned very easily and quickly. Within only one minute the mask is ready for use again. The mask bodies are available in two sizes to ensure an optimal fit. Due to the specially developed strap and the closing method, imprint marks and unpleasant pressure are avoided, the mask is hardly noticeable. Due to the B-LOCK system, the filter always sits 100% securely on the mask. The respirator is suitable for asbestos abatement, stainless steel welding, processing with presence of toxic dust. Product features - modern young design - a mask becomes an eye-catcher - perfectly combinable with other PPE items from other manufacturers, including full-face goggles - material: silicone, hypoallergenic - valve: polyamide - exhalation valve: silicone - weight: 240g - standards: EN 140:1998, EN 143:2007, EN 149:2009, EN 405:2001+ A1:2009 Includes - BLS 4000 S + P3 R filter Certification - Comply with the requirements of European Regulation 425/2016 (Personal Protective Equipment) - Certified as 3rd category personal protective equipment, with compliance with EN 140:1998 standards - They are certified and tested according to module D at Italcert S.r.l. (Personal Protective Equipment) - Marked with CE - BLS Management System is certified with ISO 9001:2008
